NPIC/TSG/RED-45/71 6 April 1971

25X1

MEMORANDUM FOR: Operations Officer, Special Activities Division,

United States Army

THROUGH : Chief, Technical Services Group, NPIC

SUBJECT: Reducst for an Evaluation Ground Order of Battle Resolu-

tion Study

1. The subject study, which employed a number of SPAD personnel as test subjects, was accomplished through a recently-completed, Cost Plus Award Fee (CPAF) contract. It is felt that the evaluation of the contractor's performance should take into account your organization's close association with the research effort.

- 2. It is therefore requested that your office assist in the evaluation of the contractor's technical performance in conducting this study.
- 3. The Contracting Officer's Technical Representative (COTR) must soon recommend an Award Fee to the Contracting Officer. The actual fee will be determined directly as a function of contractor performance, 80% of the fee determination to be based upon technical performance, and 20% upon managerial and cost performance. Your evaluation, which will be included with that of the COTR, should be limited to the technical performance aspects.
- 4. The following performance/fee schedule governs the award fee for this contract:

Outstanding 145 Excellent 128	
Good 10%	٠.
Average 8% (Target F	ee)
Below Average 6%	
Marginal 48	
Minimum 3%
